

One-Piece Fall Reduction Chairs

CF120
(with Australian Lambswool Cover)

CF180
(with Australian Lambswool Cover)

- >> Genuine Australian lambswool covers (machine washable) offer superior skin care and comfort.
- >> Optional Alpine Fleece covers are available.
- >> Crypton® upholstery fabric (two pattern choices) is water repellent, stain resistant, and antibacterial.
- >> Carefoam covers are treated with Ultra-Fresh® for antibacterial and freshness protection.
- >> Incontinence-proof seat insert is antibacterial SoffTICK® with welded seams.
- >> 5" locking casters (one steering lock caster) ensure easy maneuverability - a caregiver's delight.
- >> Fabric and foam meet fire retardancy requirements of the California Technical Bulletin 117.
- >> Limited Manufacturer's Warranty - 3 years on all components except covers. Covers guaranteed free from defects upon delivery. Please follow care and laundering instructions.

CAREFOAM's one-piece fall reduction chairs are key components of our restraint-free program. Both models are built on smooth rolling casters and are especially useful for residents who spend most of their waking hours seated and who are frequently transported throughout the facility by staff or family. These chairs are designed to safely support and comfort patients in a variety of seating positions - they are effective in the care of clients suffering from dementias such as Alzheimer's or the uncontrolled movements of Huntington's Disease. The "all foam" construction eliminates hard edges, improving patient safety and comfort while reducing unwanted wanderings. Manufactured from five different densities of foam, including memory foam, these chairs are also appropriate for those clients who may need pressure reduction or are in unusual seating positions. CAREFOAM's design allows the user to experience head, neck, and lumbar support while assuming a variety of positions in the chairs. Unique features accommodate both weight-bearing residents and those who require a patient lift.

The CAREFOAM Lounge (CF180) is our most protective model available. It surrounds the resident with soft lambswool and energy-absorbent cushioning.
