

## Rollabout Chairs

CF200

The Carefoam Rollabout is the positioning chair of choice for a variety of residents. Try this chair for any client who presents a difficult seating challenge – those for whom you have been unable to find a chair that works. As with all Carefoam products, accessories and add-ons are unnecessary. The exclusive sling-back design accommodates the physical changes of aging while providing lumbar support and thoracic stability. This design also keeps the resident's head upright, eliminating the "looking at the ceiling" position so common with other chairs. The anti-thrust seat effectively prevents sliding out of the chair. The infinitely adjustable leg rest is ideal for residents with contractures or for those who need maximum lower limb elevation. All-foam construction and lambswool comfort cover eliminate hard edges, preventing bruising and skin tears. Seating areas are lined with memory foam, contributing to pressure management and comfort.
