

CF1100 Two-Piece Plus

CF1100

(with Australian Lambswool Cover)

The Carefoam Two-Piece Plus fall management chair features our Internal Safety System (ISS) for maximum resident protection. The ISS is a discreet, padded 3-point positioner that will ensure the safety and comfort of your resident in the most challenging situations. The model CF1100 is an appropriate tool for the care of active Huntington's clients or those with other forms of ataxia. Also consider this chair for residents presenting with combative dementia, or for any situation where the primary concern is the safety of the resident and others.

The model CF1100 features our mobile ottoman base for ease of transport plus all the features of our original Two-Piece chair, including all-foam construction and moisture-proof covering. All dimensions are identical to our standard Two-Piece chair (model CF100). Should your circumstance change, the ISS can be removed from the Two-Piece Plus, and the chair will perform exactly as our original. The ISS can be reinstalled in a matter of minutes.
